# ZIMM SPECIAL GEARBOXES

## More drive for wind power

- + Decades of experience in gear construction for leading wind turbine manufacturers
- + Over 5,000 reference systems in onshore and offshore areas
- + Case-hardened and ground planetary gears
- + Case-hardened and tooth flank ground output pinions
- + Proven quality: Made in Germany – Made by ZIMM
- + Deep vertical manufacture range
- + Complete transmission solutions with customer-specific motors
- + Capacity for fast and reliable delivery
- + Designed for normal and extreme environmental conditions
- + Modular planetary gear

# INDIVIDUAL, ROBUST AND RELIABLE

ZIMM is Europe's leading manufacturer of screw jacks. By acquiring the Schäfer Group, ZIMM has expanded its know-how by a century and a half and is now in a class of its own in industrial and special gear.

## *Innovation and passion for more than 148 years*

Founded by Carl Heinrich Schäfer in 1873, the German family company has been producing exceptional gearing solutions for decades. In the last few years, the company has focused on compact industrial and special gear units. Due to ZIMM GmbH's takeover, there is now a global sales and service network with individual solutions, high level of vertical manufacturing and technical advice on site.
